### No. 1—Population

*Note*—For dates subsequent to the latest Population Census the estimated population represents the population ascertained at the Census plus natural increase and recorded net migration since the Census. As complete records of migration are not available, the population estimates so derived are subject to revision when the actual population is ascertained at the next Census. The figures for periods between the 1954 and 1961 Censuses have been revised in accordance with the results of the 1961 Census.

## VII—PRODUCTION

### No. 31—Estimated Net Value of Production

For Primary Industries, net value of production is derived by deducting all marketing costs and the cost of goods used in production (seed, fertilizer, pickling, sprays, dips, fodder, fuel and oil, etc.) from the value realized "at the principal market." For Manufacturing, it is obtained by deducting the cost of goods consumed in the process of production (i.e., materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced and containers and packings) from the selling value "at the factory door."

## XVIII—MOTOR VEHICLE REGISTRATIONS

In Western Australia there is no single authority responsible for the licensing of vehicles. The Traffic Branch of the Police Department issues licences in the Metropolitan Traffic Area, which comprises the whole of the Metropolitan Statistical Division and that part of the Swan Division consisting of the Shires of Cockburn, Gosnells, Kwinana and Rockingham in their entirety and parts of the Shires of Armadale-Kelmscott, Mundaring and Swan-Guildford. Outside the Metropolitan Traffic Area the Town or Shire Council is responsible for the licensing of vehicles in its own district.
